

Substance Use Treatment Services

SYSTEM ALERT

Date: April 27, 2020

TO: All ASOC & YSOC Providers
TOPIC: Recent Release DHCS FAQs COVID 19

New Protocol

During the international pandemic of COVID 19, DHCS has been compiling an ongoing list of frequently asked questions. The most up-to-date information can be found on the DHCS website, COVID-19 Response website page. DHCS has two documents to which they will continue to add information: 1) Behavioral Health Information Notice 20-009; and, 2) DHCS Frequently Asked Questions. As of Thursday, April 23, 2020, DHCS has informed the counties that they have “merged” these two documents. The FAQs can be found attached at the end of IN 20-009. DHCS has conveniently placed dates next to all the documents on their response page to more easily navigate the information.

Please find attached the most recently released information from April 22, 2020. You are strongly encouraged to read the entire document as those issues pertinent to substance use treatment and the DMC-ODS waiver are woven throughout the entire document.
