required**

Teri Pichot, LCSW, LAC, MAC has over thirty years of experience working with some of the most challenging clients including those who struggle with substance misuse, chronic mental illness, and domestic violence. She studied Solution-Focused Brief Therapy under the founders, Insoo Kim Berg and Steve de Shazer, and their way of working continues to have a strong influence in her professional life. She was the program manager of a county-based co-occurring substance abuse treatment center for over fifteen years. While there, she was instrumental in shifting the treatment approach from a more traditional problem-focused model to one based upon solution-focused tenets. It was also in this role that she honed her skills in engaging and effectively working with clients who are mandated into treatment by child welfare and the legal system. She is an internationally recognized trainer and consultant in Solution-Focused Brief Therapy, and she is the author of five books (some of which have been translated into French, Japanese, Mandarin, Chinese, and Spanish). She is the founder and sole employee of the Denver Center for Solution-Focused Brief Therapy, and she provides inspiring and educational trainings and workshops to professionals around the world in how to master this evidenced-based approach with some of the most difficult clientele. She is known for her energetic and personable teaching style, and she brings passion and practicality to her workshops. She believes that everyone who attends her trainings should leave with meaningful tools that will make an immediate difference in their clients' lives.

Target Audience: Santa Clara County Behavioral Health staff and contract agencies.

Course Description:

This training is designed for those who have already completed the 2-day Solution-Focused Brief Therapy Basics class, have been practicing on their own, and now want more in order to fine tune their work with clients. In this unique class, the instructor works with the learners to help them identify what is currently working in their practice of Solution-Focused Brief Therapy and helps them to identify areas of growth they would like to address. These targeted areas of growth form the agenda for the class. This class is designed to be taken multiple times in a "practice lab" fashion. This section will have a specific emphasis on using Solution-Focused Brief Therapy with Co-Occurring Disorders.

***Pre-requisite: "Solution-Focused Brief Therapy Basics (2-day)" training. This training will count toward the certificate.**

Course Objectives: participants will be able to:

1. When justifying their clinical approach, professionals will be able to recognize the necessary modifications needed to fine-tune their SFBT interventions with the most challenging presenting issues.
2. When asked, the professional will be able to accurately describe why SFBT is effective with a variety of acute and chronic mental health problems based on current evidenced-based research.
3. When developing clinical interventions, attendees will be able to identify the three distinct sections of an SFBT session and how to use these most effectively in their work setting based upon each individual client's needs.

Santa Clara County Behavioral Health Services Department (SCCBHSD) is approved by the CA Association of Marriage and Family Therapist (CAMFT) to sponsor continuing education for Santa Clara County LMFTs, LCSWs, LPCCs, and /or LEPs. SCCBHSD maintains responsibility for this program/course and its content. This course meets the qualifications for 6.5 hours of continuing education credit for LMFTs, LCSWs, LPCCs, and /or LEPs, as required by the CA Board of Behavioral Sciences (BBS). CAMFT is the BBS recognized approval agency-Provider # 131775. SCCBHSD also is approved by CA Consortium of Addiction Programs and Professionals (CCAPP) and CA Association for Alcohol/Drug Educators (CAADE) and the Board of Registered Nursing (BRN) to provide CEUS. Lunch and scheduled breaks during the training do not count toward CEU credit.

Post test will be available immediately after the training and open for only 30 min. Participants must pass the post test with 80% and higher to receive CEU credits.
